[92] BAMBOO USED IN EVERYDAY PRODUCTS

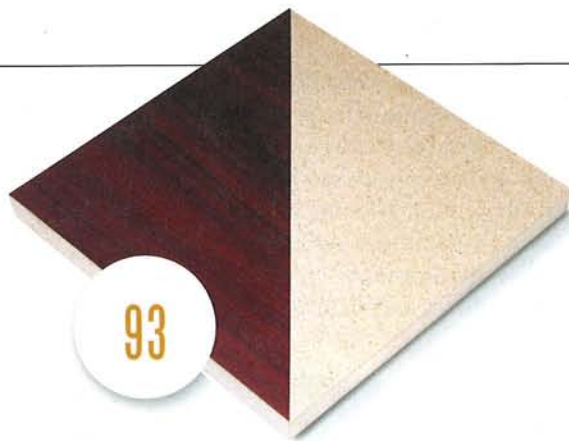

Cali Bamboo LLC integrates bamboo into its products because it is a high-yield renewable resource and has a higher tensile strength than many alloys of steel. The company's products include bamboo fencing, poles, slats, flooring, plywood, rugs, blinds, matting and palm thatch.

[93] PARTICLEBOARD IS FSC CERTIFIED

The Collins Cos. has released Collins Pine FreeForm, the only Forest Stewardship Council-certified Western Pine particleboard in North America. The particleboard, which contains no added urea formaldehyde, was developed from two years of research, testing and trials. Collins uses 100 percent recovered and recycled wood to eliminate dependency on virgin fiber.

[94] VACUUM SYSTEM IS SMART

Beam's Serenity IQA Power Unit central vacuum system from Electrolux Central Vacuum Systems includes an electronic user information system. A liquid-crystal display provides real-time information regarding the unit's efficiency, dirt level, time, temperature and service information. It delivers 640 airwatts of cleaning power. Additional features include a mold prevention agent and electric power brush.

[95] LOOP CARPET IS FOR COMMERCIAL APPLICATIONS

Fiesta! from Cambridge is a versatile textured loop carpet for commercial applications. It captures the rich, Earthy tones and bright accent colors of Mexico in nine different colorways. Available in broadloom and 24 by 24 inch (610 by 610 mm) modular tile, the carpet is made of Cambridge's Avalar X nylon with Puralex, a permanent, self-renewing odor neutralizer. Its backing contains 85 percent post-consumer recycled content.
