

# CARMEL VALLEY OAK

## Engineered Oak Flooring

A warm ash complexion glows with the pioneering strength of windswept barnwood, with a matte finish and unassuming charm that uplifts the whole home. European white oak, responsibly harvested from the Ardenne forest, is known for delivering dense, naturally stunning hardwood. This timber boasts a provocative grain and is stained to perfection, bringing out a wide range of visual intricacies. Veneers are 4mm thick and Euro sawn to accentuate an array of colors and textures. Planks are extra wide, highly varied, and green to the core -- stabilized by a foundation of cross-constructed, sustainable acacia wood.
