

SAUVIGNON OAK

Engineered Oak Flooring

Sandy driftwood tones lighten the mood with delicate hand scraping and pronounced knots. European white oak, responsibly harvested from the Ardenne forest, is known for delivering dense, naturally stunning hardwood. These light brown wood floors boast a provocative grain and is stained to perfection, bringing out a wide range of visual intricacies. Veneers are 4mm thick and Euro sawn to accentuate an array of colors and textures. Planks are extra wide, highly varied, and green to the core -- stabilized by a foundation of cross-constructed, sustainable acacia wood.
